

Press Release

Hikma Pharmaceuticals to Publish Report on its Alignment with UN Sustainable Development Goals

Amman, May 2017 – Underscoring its commitment to the prosperity and wellbeing of the communities in which it operates, [Hikma Pharmaceuticals](#), the fast growing multinational pharmaceutical group, will publish a report illustrating its contributions toward the achievement of the United Nation’s Sustainable Development Goals (UN SDGs), a set of 17 goals that aim to end poverty, protect the planet and ensure prosperity for all.

In the **Hikma** UN SDG report, the Group reviews its contribution to global sustainability efforts, assessing how its core purpose of providing quality pharmaceuticals at affordable prices, combined with its overarching sustainability strategy, affect **Hikma**’s ability to drive sustainable development. Publication of the report on 19 May, 2017, will coincide with **Hikma**’s participation in the World Economic Forum (WEF) on the Middle East and North Africa, where it is taking a leadership role in bringing together stakeholders from across the region to address issues such as economic growth, social inclusion and other aspects of sustainable development.

The UN SDGs, adopted by all members of the UN General Assembly in 2015, serve as a guide for policymakers, civil society and the private sector, laying out goals and targets in a range of social, economic and environmental areas. The report focuses on **Hikma**’s contribution to the five specific SDGs that are most closely aligned with its business and corporate responsibility (CR) activities around the globe. The selected Goals comprise ‘Goal 3: Good Health and Wellbeing’, ‘Goal 4: Quality Education’, ‘Goal 5: Gender Equality’, ‘Goal 8: Decent Work and Economic Growth’ and ‘Goal 9: Industry, Innovation and Infrastructure.’ The report will be available on the official **Hikma** website under its [‘Sustainability’](#) section.

As a leading pharmaceutical manufacturer, **Hikma** strives to serve as a model in the areas of sustainability, ethics, and social outreach. The upcoming report will showcase how the Group’s external and internal activities advance the UN SDGs, thereby

illustrating the private sector's crucial role in creating economic growth and addressing social needs.

Since **Hikma**'s establishment in 1978, CR has served as an integral part of the Group's purpose and mission, resulting in a corporate culture in which sustainability, volunteerism and community engagement form the cornerstone of operations. Continuing in the legacy of the Group's founder, the late Mr. Samih Darwazah, **Hikma** continuously strives to enhance the wellbeing of local communities, not only through its core activities, but also by focusing on giving back in areas such as education, women's empowerment, improving quality of and access to health, and elevating medical awareness.
