

## Hikma Receives Recognition for Supporting United Nations Sustainable Development Goals

**Amman, October 2018** - Hikma Pharmaceuticals PLC (Hikma, Group) - the multinational generic pharmaceutical company - has received recognition from Support the Goals for supporting the United Nations (UN) Sustainable Development Goals (SDGs).

The SDGs - also known as the Global Goals - are a set of plans aimed at ending poverty, extreme inequality and climate change by 2030. Agreed upon by world leaders in 2015, these goals can only be achieved through the support of businesses.

Hikma's promise is to put better health, within reach, every day. The Group aims to achieve this by ensuring its products remain accessible to those who need them most, while continuously engaging with its communities to promote healthier and more prosperous lives. Much of Hikma's work contributes directly towards the achievement of the SDGs. In 2017, Hikma adopted five goals that align most closely with its business and Corporate Social Responsibility (CSR) strategy. These include: Good Health and Well-being, Quality Education, Gender Equality, Decent Work and Economic Growth, as well as Industry, Innovation and Infrastructure.

Hikma has been awarded three stars by Supporting the Goals. Stars are awarded when businesses publicly demonstrate plans, commitments, actions and progress towards the SDGs. "We truly believe in the importance of collaborative work to positively impact the world, which is why we promptly took on supporting the Global Goals as they are essential for enhancing quality of life," commented Hana Darwazeh Ramadan, Vice President of Corporate Communication and Corporate Responsibility at Hikma. "We are proud to receive this recognition and we will continue to join global efforts that share our vision for a better future for generations to come."

### **About Hikma**

Hikma helps put better health within reach every day for millions of people in more than 50 countries around the world. For 40 years, we've been creating high-quality medicines and making them accessible to the people who need them. We're a global company with a local presence across the United States (US), the Middle East and North Africa (MENA) and Europe, and we use our unique insight and expertise to transform cutting-edge science into innovative solutions that transform people's lives. We're committed to our customers, and the people they care for, and by thinking creatively and acting practically, we provide them with a broad range of branded and non-branded generic medicines. Together, our 8,500 colleagues are helping to shape a healthier world that enriches all our communities. We are a leading licensing partner in the MENA region, and through our venture capital arm, are helping bring innovative health technologies to people around the world.
