

Hikma receives recognition for supporting United Nations Sustainable Development Goals for the second consecutive year

London, 2 December 2019 – Hikma Pharmaceuticals PLC (Hikma, Group) (LSE: HIK) (NASDAQ Dubai: HIK) (OTC: HKMPY) (rated Ba1 Moody's / BB+ S&P, both stable), the multinational pharmaceutical group, has received recognition for its progress in supporting the United Nations (UN) Sustainable Development Goals (SDGs).

Hikma has been awarded four out of four stars by Supporting the Goals. This is an improvement from the three stars awarded to the company last year. Stars are awarded when businesses publicly demonstrate plans, commitments, actions and progress towards the SDGs.

"We are proud to receive this increased recognition for our work towards the UN SDGs. We will continue to collaborate with others that share our vision for a better future for generations to come, and better health for our communities," commented Hana Ramadan, Vice President of Corporate Social Responsibility at Hikma.

Hikma aims to achieve its promise of putting better health within reach by ensuring its products remain accessible to those who need them the most, whilst continuously engaging with its communities to promote healthier lives. Much of Hikma's work contributes directly towards the achievement of the SDGs. Hikma adopted six goals that align most closely with its business and Corporate Social Responsibility (CSR) strategy. These include: Good Health and Well-being, Quality Education, Gender Equality, Decent Work and Economic Growth, Climate Action as well as Industry, Innovation and Infrastructure.

About Hikma

Hikma helps put better health within reach every day for millions of people in more than 50 countries around the world. For more than 40 years, we've been creating high-quality medicines and making them accessible to the people who need them. We are a global company with a local presence across the United States (US), the Middle East and North Africa (MENA) and Europe, and we use our unique insight and expertise to transform cutting-edge science into innovative solutions that transform people's lives. We're committed to our customers, and the people they care for, and by thinking creatively and acting practically, we provide them with a broad range of branded and non-branded generic medicines. Together, our 8,400 colleagues are helping to shape a healthier world that enriches all our communities. We are a leading licensing partner, and through our venture capital arm, are helping bring innovative health technologies to people around the world.
